

description

dform saucer pendants are dramatic centerpieces for seating areas, public spaces, and dining and conference rooms. Though we offer round saucers in five standard sizes between 24 and 52 inches, larger custom pieces can be made as well as elliptical and beehive shapes.

material

Shade patterns are hand assembled interlocking laser cut pieces of wood or plastic.

The standard shade material is 2-ply wood veneer with a poly core lamination and surface coating. The material is cleanable with soap water and cloth or household spray cleaners.

Also available is a white poly material with ASTM E84 class A rating. This poly material can also be made in other colors.

construction

Saucers are constructed with an internal framework to support the shade and electrical components. In most cases the shade is designed to separate from the electrical armature for ease of installation. The translucent white acrylic bottom diffuser is removable for lamp changes.

suspension

Custom saucers hang at any specified length from a standard octagonal junction box by steel suspension stem or aircraft cable.

model	pattern	dimensions	shade material	lampholder type	voltage	suspension	metal finish	stem length
U								
B=	 basket	(W) X (H) round	A =  aspen	A = (1+) 60w incandescent A19	 120 277 lamp type X & D only	T = steel tube w/ canopy	M1=  silver metallic	the stem length is the distance from the ceiling to the top of the fixture
S=	 small pucci round spiral only	(L) X (W) X (H) elliptical or beehive	B =  birch	G = (1+) 26w fluorescent GU24 twist lock		S = steel tube w/ swivel canopy	M2=  light bronze	
			P =  white poly	X = (1+) 26w fluorescent 4-pin GX24Q-3		R = aircraft cable w/ cable canopy	M3=  dark bronze	
				D = (1+) 26w fluorescent 4-pin GX24Q-3 dimmable				

lamps are not included
